

What we do...

Community Development Resources (CDR) is a non-profit 501(c)(3) organization that provides loans and business consulting to small business owners, micro-entrepreneurs, and non-profit community organizations in the state of Nebraska.

Our services are available to qualifying low-income individuals, women, minorities and persons living in and investing in the economically distressed areas of Nebraska.

Our History ...

The Self Employment Loan Fund (SELF) was established in 1994 to fill the gap in access to capital resources, business consulting and training for low-income, minority and women business owners in Lancaster County, Nebraska. In 2002, SELF was certified as a Community Development Financial Institution (CDFI) by the U.S. Department of the Treasury. In 2003, SELF changed its name to Community Development Resources (CDR), to better complement the company mission and goals. Today, CDR continues to increase economic and community development capital statewide.

MISSION

It is the mission of Community Development Resources to create economic opportunity and strong communities by providing capital and business consulting to develop and fortify small businesses.
